

Jennifer Dahl  
Common Core State Standards  
DC SBOE Meeting May 5, 2010

- Throughout my involvement with the Common Core State Standards (CCSS) I have been very impressed with the work by Ms. Reavis and her team to involve teachers and instructional specialists from a variety of LEAs.
- As a participant on the K-2 ELA panel I was able to meet with colleagues to discuss the implementation of the CCSS and to help begin brainstorming supports for stakeholders and community members.
- Additionally, I have been impressed by the eagerness and willingness of teachers to participate voluntarily in the panels and on submitting reviews. The collaboration amongst the LEAs and teachers has been inspiring as we move through the review and potential adoption of the CCSS.
